

New Jersey Interscholastic Fencing Officials Association

Nicholas Franzi, President
 Rick Mayer, Vice President
 Bob Largman, Secretary/Treasurer

The NJFOA has been established to become the New Jersey State Interscholastic Athletic Association-recognized state body to provide structure, training, consistent enforcement and interpretation of the rules of fencing, and to certify competent high school Fencing referees in New Jersey.

Fencing is one of the state's fastest-growing high school sports, with almost 50 schools fielding varsity teams for boys and girls across the state and additional schools offering club fencing. But the sport is experiencing growing pains - one of the most critical issues is its acute and expanding need for **knowledgeable, experienced referees**.

If you can referee foil, epee or saber, New Jersey high school fencing needs you...

- ◆ For the major annual statewide tournaments, such as the Cetrullo, Santelli, Freshman/Sophomore and state championship tournaments
- ◆ For interscholastic dual meets all season
- ◆ For the annual "Sweet 16" post-season series

Distinguished, senior referees with national standings and certifications have joined together to create the NJFOA to foster professionalism and ensure the availability of quality refereeing talent wherever and whenever our high schools need it. But the pool of talent must grow, and junior referees - especially experienced fencers who want to become officials - are strongly encouraged to join the association and officiate. **This includes high school fencers.**

Referees are paid for their efforts, and there is the satisfaction of contributing to the growth of the sport. **Join us!**

Sign me up - I want to join the NJFOA immediately.
